## Lila Global joins GSB Tankers J19 Pool with 2 chemical tankers

Lila Global has joined J19 Pool of GSB Tankers end of December 2022 bringing the total Pool vessels to 9 at the end of 2022.

Shinsuke Togawa, Managing Director of GSB Tankers, said: “We are happy to report the addition of a new Pool partner. It has been a dramatic 2022 with strong earnings and ending the year with expansion of the Pool partners reflects our competitive position in the market. We expect to add more Pool partners in 2023 and expand the Pool to grow in terms of the fleet size.”

We welcome Lila Global into our J19 Pool and pleased to share that both vessels have been delivered into the Pool. We aim to work together with Lila Global to provide them with excellent services with our expertise.

### **About GSB Tankers**

Golden Stena Baycrest Tankers is an international commercial ship management operator headquartered in Singapore. Established to serve ship owners by undertaking the operation and commercial management of chemical tankers, Golden Stena Baycrest Tankers (GSB Tankers) have been helping owners to maximise the profits of each vessel with improved chartering returns and advocating operation prudence. By aligning the interests of ship owners, GSB Tankers have successfully pooled together resources benefiting every owner through its J19 Pool service. [GSB Tankers – Charting the Ways Forward](#)
